

SS Lazio's Lorik Cana has set his side a target of reaching the UEFA Europa League final after a 2-0 victory at Legia Warszawa secured Vladimir Petković's team a round of 32 place with a game to spare. Meanwhile, Legia defender Tomasz Brzyski fears "Poland is laughing at us" after a fifth straight Group J defeat.

"We saw a good Lazio today. We knew Legia had nothing to lose as they had no points, no goals and were bottom of the table. So we were sure they would try to change that situation but we started very well and almost completely controlled it. Legia only had two chances and we did not allow them to create any more", said the Albanian defender.

"This victory has given us a lot of self-confidence. We are in good position. If we win our last game, we have a chance to win the group. I am especially happy for our young strikers. They did very well today and I am pretty sure we have a great future with them in the squad", added the Albanian National team captain Lorik Cana.

"Lazio are a big club so we must set big goals. Why not think about winning the UEFA Europa League? Last year, we reached the quarter-finals and lost to Fenerbahçe SK, although it was very close. I think this year our goal should be at least to reach the final", ended Cana.
